Professional Summary

Data engineer with 4+ years of experience delivering Python-based data solutions, focusing on data quality, production monitoring, and API integration. Demonstrated leadership in large open-source communities and student tech clubs.

Education

St. Martin's Engineering College (JNTU Hyderabad) **2021–2026 (expected)**
B.Tech in Computer Science and Design *Hyderabad, India*

- Relevant coursework: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Machine Learning, Deep Learning, NLP, Computer Vision.

Experience

Weave **Nov 2025–Present**
AI Trainer — Data Quality, Analytics & Management *Remote*

- Reviewed and improved data used to train AI models, enhancing overall data quality.
- Monitored live production and intervened via API calls to resolve AI lag, ensuring continuous operation.

Samagra **Jun 2024–Nov 2024**
Data Science Intern — Code for GovTech (C4GT) *Remote*

- Built a unified Python package for cross-country economic policy simulation, creating a modular architecture.
- Developed interactive Plotly visualizations to analyze budget impact, income deciles, and poverty metrics, supporting data-driven insights.

Leadership & Community

Code for GovTech (C4GT) **Nov 2024–Jul 2025**
Community Manager *Remote*

- Managed an open-source community of 10,000+ members, coordinating developer relations and program initiatives.

Google Developer Student Club (GDSC), St. Martin's **Jun 2023–Jun 2024**
Lead *Hyderabad, India*

- Founded and expanded a Google Developer Student Club to 800+ members, organizing events and mentorship programs.

Technical Skills

Languages: Python, Java, C, hona

Areas: Data analysis, Machine Learning, Deep Learning, NLP, Computer Vision

Communication: Cold calling, appointment setting, objection handling, CRM tracking

Tools: Git, GitHub, Linux
